DECLARATION OF UNDERSTANDING
Site-Specific Health and Safety Plan (SSHASP) Technical Change Acknowledgment

I have read and understand this SSHASP technical change and agree to abide by the procedures and limitations specified here, in the original project SSHASP, and in the DRI Health and Safety Plan. Personnel unable to read this document must have their supervisor explain the contents of this document prior to working on the site. Individuals who have questions on information found in this plan should discuss their questions with their supervisor for clarification.

NOTES:

1. All project personnel, including subcontractors, must abide by the specifications and limitations contained in this technical change.
2. All personnel working on site must sign this form.
3. This technical change will be discussed at all appropriate daily Tailgate Safety Briefings.
4. This technical change will be maintained in the project files in conjunction with the original project SSHASP.
5. Additional copies of this signature page may be added as necessary.
